

SWOT

Strengths

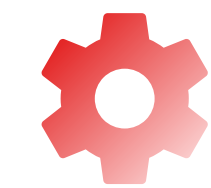

Large User Base

- 178M monthly users

Public Engagement

- Strong ties with local restaurants
- Proportional passive and active user engagement

Practicality

- Innovative features that incentivize frequent consumer use
- Waitlist, Reservations, In-app advertisements

Weakness

Lack of Diversification

- Overwhelming association with the restaurant industry
- Consumers less likely or interested in using Yelp for unrelated services

Stigmatization

- Yelp is oftentimes seen as a place for old, cranky people to complain

User Discretion

- Possibility of fake reviews, decreasing trust

Opportunities

Strategic Partnerships

- Collaborating with well-known brands or influencers
- Publicizing expansion into different industries or services

AI Implementation

- Establish Yelp as a search engine
- Increase personalization

Threats

Rising Competition

- In-app review integrations with common search engine platforms (Google) make for more convenience and exposure

Platform Dependency

- Yelp has a reliance on its app, but reviews and services are increasingly more common on other platforms; may mark a shift in behavior
